## 1955 INTRODUCTION

### MELLOW GOLD

Tobacco Road x On Guard

**\$15.00**

A soft, mellow, yellow iris with excellent form and nicely ruffled throughout. The standards are firmly cupped, and the falls semi-flaring. There is a slight white area on the haft extending to just below the tip of the heavy yellow beard. The flowers are of heavy substance, the stalks well branched. Hardy, vigorous growth.

Mid-season

Stalk 32"

H.C. '52

## OTHER INTRODUCTIONS

### CARAMEL

Mexico x L6-136 (Mexico x L2-27: Old  
Parchment x Katharine Larmon)

**\$18.00**

Beautiful and distinctive in color and form, this slightly ruffled flower is a light blend of rich butter-caramel tones. The conic standards are deeper in color than the wide flaring falls which are edged with the same color as the standards. There is a slight pale blue blaze at the tip of the yellow beard. Contrasting bright yellow-brown shoulders are pleasingly attractive and unique. The flowers are of medium size with firm substance. The stalk is well branched and sturdy. The plant is hardy and vigorous.

Mid-season. Stalk 36" H.C. '48 H.M. '54

## **AUTUMN BROWN**

**Aberdeen x Bryce Canyon**

**\$15.00**

This brilliant dark brown iris is desirable both for its unusual beauty and performance in the late season. The lightly fluted flower has closed cupped standards, and broad falls with a delightful twist at the tip. It is a blend of rich brown with an underlay of red-purple and burnished gold. The whole effect is a glowing chestnut brown with an unusual lustrous sheen, that has great carrying qualities in the garden. Strong well branched stalks. Pollen fertile both ways.

Late.      Stalk 38"      H.C. '49      H.M. '52

## **VIOLET HARMONY**

**Snow Flurry x Cloud Castle**

**\$10.00**

This large ruffled violet iris is a self with a slightly lighter flush on the smooth haft. The large blooms are of perfect proportion with well closed standards and semi-flaring falls. Its heavy substance and weather resistant qualities extend its season of bloom over an unusually long period. The flowers are well spaced on well branched, sturdy stalks, and the plants are large and vigorous growers. The flowers have pollen and set seed readily.

Mid-season.      Stalk 40"  
H.C. '48      H.M. '52      A.M. '54

Awarded the President's Cup in 1953.

# HIGHLAND FLING

Tiffany x (San Francisco x Mme. Aureau)

**\$5.00**

This bright red-purple plicata has attracted favorable comment from many garden visitors. The domed standards are heavily flushed and stippled with deep, rich red-purple. The semi-flaring falls are white, neatly edged with the coloring in the standards. The flower is slightly ruffled throughout and the substance is firm. The stalk is well branched and sturdy, the plant hardy and vigorous. Highland Fling is a brilliant, graceful and refined iris.

Mid-season. Stalk 36".
